WSO2 Data Analytics Server Documentation

WSO2 Data Analytics Server (DAS) is a lean, fully-open source, complete solution for aggregating and analyzing data and presenting information about business activities. It provides real-time visibility into distributed complex systems, including service-oriented architecture (SOA) processes, transactions and workflows.

Watch the WSO2 screencast to familiarize yourself with WSO2 DAS. This is a great place for you to start if you are new to DAS.

Get started with WSO2 DAS

If you are new to using WSO2 Data Analytics Server, follow the steps given below to get started:

- **Get familiar with WSO2 DAS**
  Understand the basics of the DAS and its architecture.

- **Quick Start Guide**
  Download, install and run the DAS in just 10 minutes.

- **Try out the Samples**
  Try out the DAS real-life business use cases.

For additional learning resources such as webinars and white papers, go to [http://wso2.com/search/resources/](http://wso2.com/search/resources/). This is a great place for you to expand your knowledge on WSO2 DAS.

Deep dive into WSO2 DAS

To know more about WSO2 DAS use the descriptions below to find the section you need, and then browse the topics in the left navigation panel. You can also use the **Search** box on the left to find a term or phrase in this documentation, or use the box in the top right-hand corner to search in all WSO2 product documentation.
